our plan

RCS is planning a building improvement project for 2025. The school started in 2020 with 54 students, and this year we are blessed to serve 109 students from 51 different families. In the past years we have experienced growing pains in our current space with small restrooms and tight classrooms. The goal of this project is to improve the daily operations to serve our students better. See the back page for more details on the scope of the project. The goal at RCS is to cultivate servants through learning, and it's a community effort. I welcome you to partner with us in any way you can to equip the next generation. *We need you!* ~ Zac Weaver, Administrator

funding

We are estimating the project to cost \$400,000, and we currently have \$90,000 in the building fund. Our goal is to raise a majority of the funds with end of year giving in 2024 so we can have all the funding to start the project in May 2025. Will you help us with our goal?

Scope of the Project

- ✓ Remodel and add to current restrooms

- ✓ Add offices and library in multi-purpose room.

- ✓ Remodel classrooms/hall to make 3 classrooms with daylight windows.
